

FLOROGEN

ORIGINAL, LAVENDER, FRANGIPANI & STRAWBERRY CONCENTRATED AIR FRESHENER

BENEFITS:

- Kills 99.9% of bacteria
- Improved hygiene in areas of use
- Long lasting deodorisation
- Hospital strength odour control

The FLOROGEN range are concentrated alcohol based air fresheners, which may be used as a space deodorant or as a surface deodorant for extremely long lasting 24 hour deodorisation. The pleasant perfumes of the FLOROGEN alcohol based products include strawberry, frangipani, lavender and original.

The FLOROGEN range will mask unwanted odours and provide a positive method for increasing hygiene in the immediate area of use. The FLOROGEN range provides a reduction in both the aerial microbial count and surface microbial population. The FLOROGEN range should be applied by atomised spray. Finer sprays give greater distribution of small liquid particles over a generally wider area and this accentuates the masking action of the product.

DIRECTIONS FOR USE

The FLOROGEN range may be used as a space deodorant or as a surface deodorant for extremely long lasting 24 hour deodorisation. For long lasting deodorisation in toilet areas spray FLOROGEN behind toilets, under sinks, behind desks and furniture, and into waste bins after cleaning. The residual surface perfumes will effectively deodorise for 24 hours or longer in some areas.

NOTE: Avoid inhalation when using atomised spray. To avoid inhaling mist, spray directly onto a surface rather than into air. (e.g. spray behind doors, in corners or under benches).

SAFETY DATA:

For further information refer to the Material Safety Data Sheet (MSDS) located on the Whiteley Industrial web site: www.whiteley.com.au

HEALTH AND SAFETY STATEMENT

There is no way of predicting an individual's response to cleaning or disinfecting products. All cleaning and disinfecting products have potential to cause skin and other irritation in susceptible individuals. Direct physical contact with the skin should be avoided. If irritation does occur when using this product or any other cleaning/disinfecting solution then the individual should be removed from direct contact with the solution until a satisfactory safe working environment for that individual is determined.

ENVIRONMENTAL STATEMENT

Whiteley Industrial manufactures products that comply with Australian and International environmental policy. Whiteley Industrial aims to ensure that every product is 100% biodegradable, whilst achieving optimal performance and benefit to customers. All Whiteley Industrial products are supplied in 100% recyclable containers.

Whiteley Industrial and its staff are fully committed to ensuring that our Australian environment and those international environs in which our products are used are enhanced by the use of technology, and that these environments are preserved for the enjoyment of future generations.
