

FRESH

TOTAL WASHROOM CLEANER & DISINFECTANT

ABOUT FRESH:

Fresh offers a deeping penetrating cleaning action to remove soils and malodours at the source. Fresh rapidly cleans and disinfects showers, sink basins, tiles and toilet in one efficient operation. Fresh is formulated with a combination of corrosion inhibitors and is safe on most surfaces including ceramics, porcelain, plastics including formica, glass, chrome and stainless steel.

Fresh uses organic acids and biodegradable detergents to rapidly break down soap scum, body fats, oils and soils on contact. The high foaming detergents suspend the soil in solution once removed from the surface. Persistent mal odours in bathrooms and washrooms come from difficult to remove bacteria penetrated into old, porous ceramic tiles. Fresh can kill and remove these bacteria at the source.

Fresh has been evaluated as per the criteria of EN 1276 bactericidal test against the following organisms at a dilution of 100mL/L with 10 minute contact time:

- *S. aureus*
- *E. coli*
- *P. aeruginosa*
- *E. hirae*

BENEFITS:

- Pleasant citrus perfume
- Free rinsing acidic detergent
- Leaves surfaces sparkling clean
- Removes soap scum and hard water deposits
- Kills odour causing bacteria
- Suitable for use on glass & stainless steel
- Easy to use
- Biodegradable
- Phosphate, chlorine and ammonia free

DIRECTIONS FOR USE:

Disinfection: Dilute 100mL/L, allow 10 minutes contact time before removing.

General Cleaning: Dilute 100mL/L for heavy cleaning and 50mL/L for light cleaning / spray and wipe.

Toilet Bowls:	Use neat. Apply under the rim of the bowl or urinal, leave for 10 minutes before flushing the toilet (scrub with brush for heavy stains).
Floors and walls:	Dilute 50mL/L of water.
Outdoor Concrete:	Use neat, apply to surface and scrub with brush to clean and lighten concrete. Rinse with water after scrubbing.

Note: Fresh is an acidic formulation and should not be used on terrazzo, marble, limestone or polished concrete. Do not apply to painted surfaces as some discolouration may occur.

PROPERTIES:

Appearance:	Clear blue green liquid
Odour:	Citrus Fresh
pH (concentrate)	~2.50
Solubility	Completely miscible with water
Rinsibility	Excellent
Volatility	Nil
Safety Equipment	Use of gloves and eye protection recommended
Dangerous Good?	No

SAFETY DATA:

WARNING: DO NOT MIX WITH CHLORINE, BLEACH OR OTHER DETERGENTS.

Additional information can be found in the safety data sheet. The safety data sheet can be located on the Whiteley website: www.whiteley.com.au

HEALTH AND SAFETY STATEMENT:

There is no way of predicting an individual's response to cleaning or disinfecting products. All cleaning and disinfecting products have potential to cause skin and other irritation in susceptible individuals. Direct physical contact with the skin should be avoided. If irritation does occur when using this product or any other cleaning/disinfecting solution then the individual should be removed from direct contact with the solution until a satisfactory safe working environment for that individual is determined. For additional information, refer to safety data sheet.

ENVIRONMENTAL STATEMENT:

Whiteley manufactures products that comply with Australian and International environmental policies. Whiteley aims to ensure that every product is 100% biodegradable, whilst achieving optimal performance and benefit to customers. All Whiteley products are supplied in 100% recyclable containers.
